Degrees

Master of Science (technology)
Tampere University of Technology,
2008

Major:
Software Engineering
Minor:
Technical Mathematics

6 months of international studies:
Universiti Sains Malaysia

Postgraduate studies

Tampere University of Technology
Subject:
Deep learning: Applying modern machine learning to
industrial log anomaly detection
Minors:
Learning systems
Signal processing

Publications

Procedia Computer Science, December 2017:
["A Simulator for Event-oriented Data in Flexible Assembly System Fault Prediction"](#)
Master's thesis:
["Carbook: A Platform for Mobile Automotive Services"](#)
5 patents, 8+ patent applications, several white papers,
scientific and corporate blog articles

Awards & achievements

1st place in #IndustryHack / #CargoHack at #HackTheSea at
MacGregor, 2016
3rd place in #SpaceTyckiting @Futurice, 2016
1st place in #IndustryHack at #HackTheFactory at Fastems, 2015
2nd and final online round in Facebook Hacker Cup 2011 (placed
182th)
3 customer satisfaction awards (Nice-business Solutions Oy,
2009, 2010, 2011)
13 invention awards (Elektrobit, HERE Technologies)

Work experience

Day Jobs	Side Hustles
<p><u>HERE Switzerland GmbH</u> Lead ML & AI engineer 2018-07-01 – 2022-04-30 Wollishofen, Zürich, Switzerland AI and machine learning. Deep reinforcement learning.
